Welcome to ISO Consultants Pte. Ltd.!

We are a leading provider of ISO 14001:2015 training and consultancy support, helping organizations in Singapore and beyond to implement or improve their EMS based on the ISO 14001:2015 standard.

What is ISO 14001:2015?

ISO 14001:2015 is an internationally recognized standard for environmental management systems. It is designed to help organizations manage their environmental responsibilities in a systematic and proactive manner.

Definition

ISO 14001:2015 is a standard that outlines the requirements for an organization's environmental management system. It is designed to help organizations minimize their negative impact on the environment and comply with relevant laws and regulations.

Scope

ISO 14001:2015 is applicable to any organization, regardless of size or industry, that is looking to implement an environmental management system.

Purpose

The purpose of ISO 14001:2015 is to provide a framework for organizations to identify and control their environmental impacts, prevent pollution, and continually improve their environmental performance.

According to a survey conducted by the International Organization for Standardization (ISO), companies that have implemented ISO 14001:2015 have reported an average of 20% reduction in energy and water usage, 15% reduction in waste, and 10% reduction in greenhouse gas emissions.
